RE: **API Specification 17D** – Design and Operation of Subsea Production Systems-Subsea Wellhead and Tree Equipment

Please be advised that effective July 20, 2018, API modified the list of products eligible for monogramming under API Specification 17D – *Design and Operation of Subsea Production Systems-Subsea Wellhead and Tree Equipment*.

The change includes:

- Removal of Umbilical Connectors,
- Separating Casing Hangers and Tubing Hangers into two different products, and
- Removal of the PSL 3G option for Subsea Wellheads; Mudline Wellheads; Flanged Connectors; Threaded Connectors; Flowline Connectors; Other End Connectors; Casing Hangers and Seal Assemblies.

The revised list of products eligible for monogramming under API Spec 17D can be found in the API website. <http://www.api.org/products-and-services/api-monogram-and-apiqr/resources>

There are no immediate actions required by the licensed organizations. The scope of API 17D licensed manufacturers will be revised as necessary once the verification of conformity to the requirements is demonstrated during the next scheduled API audit.

For Monogram related questions regarding changes to the products eligible for Monogramming under API Specification 17D, please send all inquiries to certification@api.org.

Sincerely,

Sharon Bowie
Manager of Operations, Monogram/APIQR
