API Witnessing Program Fees Update

Thank you for participating in the API 19B Perforator Witness & Registered Design Program. Through this program, API provides objective and experienced witnesses to observe and verify Section I and II tests conducted in accordance with API Recommended Practice 19B, Evaluation of Well Perforators.

Effective January 1, 2022, Perforator Program fees will change as follows: (1) the test fee will increase to \$800, and (2) the renewal fee will increase to \$400. These increases will help API recover costs associated with managing the program. The current and future fee structure is shown below:

	Current	Effective 1/1/2022
Test fee, USD	\$500	\$800
Renewal fee, USD	\$250	\$400

Your participation in the API Perforator Witness & Registered Design Program demonstrates your commitment to industry best practices. Again, we thank you for your involvement and support of the program. For more information or questions, please email audits@api.org.

The official version of this letter is available on our website [here](#).

API Global Industry Services division drives safety, environmental protection, and sustainability across the oil and gas industry.
